

Washington County **We SUPPORT** Land Preservation Initiative

We, the undersigned, support the preservation of prime farmland and natural areas in Washington County because we believe they are important to our local economy, food supply, water resources, wildlife, scenery and overall quality of life in the county.

We recognize Purchase of Development Rights as a critical tool for the implementation of local land use plans and will be voting **YES** to support the Land Preservation Initiative on April 3rd. We authorize the use our names to publicly endorse the Land Preservation Initiative.
